

Environmental Policy

Clifford Hallam Healthcare (CH2) is a national healthcare services provider supplying pharmaceutical, medical consumables, and equipment to the healthcare market. CH2 services customers located throughout Australia in metropolitan, regional and country areas.

The directors and management of CH2 acknowledge that the nature of the business operations may have an impact on the environment and that legal and moral obligations require CH2 to act proactively to avoid environmental damage or deterioration.

Our objectives are to;

- To achieve net-zero greenhouse gas emissions at or before 2050
- Reduction of Scope 1 and 2 greenhouse gas emissions year on year (from a FY22 baseline)
- Provide resources, information, instruction, skills and training necessary to assist our employees, contractors, visitors and clients to be more environmentally aware
- Purchase 'Green or Eco' products and services where possible
- Monitor and reduce waste generation in the supply chain
- Conserve water and reduce consumption
- Reduce and monitor energy consumption identifying opportunities for renewable power generation supply

All employees at Clifford Hallam Healthcare are responsible for ensuring the environment be protected from damage at all times and will take immediate action to minimise environmental impacts.

Employees are also encouraged to inform Managers and Supervisors of changes to existing practices that will assist in avoiding environmental damage and deterioration.

David Collins

Chief Executive Officer
